### ***Citation of Art***

4. The Examiner apologizes for the apparent omission of the citation of the reference used (U.S. Patent No. 6,889,225) for the previous double patenting rejection. An USPTO - 892 form containing this reference is included with this action.

### ***Response to Arguments***

***Examiners Reasons for Allowance***

6. Claims 1-26 are allowed.
7. The following is a statement of reasons for the indication of allowable subject matter:

While Tamura (U.S. Patent No. 5,182,799) discloses the use of both hash and associative memory of these reference(s) taken either alone or in combination with the prior art of record disclose the search engine system that uses a hash and an associative memory, specifically including:

(claims 1,6,14,19) "a logic unit to receive said hash output and said CAM output, to create an address value based on said hash output",

in combination with the remaining elements and features of the claimed invention. It is for these reasons that applicant's invention defines over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
